06 KEY QUESTIONS

PROTOCOL COVERAGE

Walk through exactly how your platform handles [specific protocol from our environment]. What function codes do you decode, and how was that coverage validated in a production environment?

Vendor response:

PASSIVE DEPLOYMENT

If your sensor is deployed in passive-only mode with no active queries permitted, what capabilities are unavailable or degraded?

Vendor response:

LEGACY ASSETS

What does your platform do when it encounters an asset it cannot identify or decode?

Vendor response:

COMPLIANCE EVIDENCE

Show the exact evidence package your platform generates for a NERC CIP-015 audit. What format is it in, and has it been accepted by a NERC auditor?

Vendor response:

PROFESSIONAL SERVICES

What is the minimum professional services engagement required to deploy and tune this platform in an environment like ours?
What is the typical timeline?

Vendor response:

REFERENCE CUSTOMERS

Provide two reference customers in our industry who have been audited under our compliance framework and are willing to speak about their experience with your evidence package.

Vendor response:

VENDOR NAME AND PRODUCT

DATE SUBMITTED

PROTOCOL COVERAGE RESPONSE

Confirm coverage for each protocol listed in Section 02. Note any limitations.

DEPLOYMENT CONSTRAINTS RESPONSE

Confirm compliance with each constraint checked in Section 03. Note any exceptions.

COMPLIANCE OBLIGATIONS RESPONSE

Describe the evidence package your platform generates for each framework in Section 04.

RESPONSE TO EVALUATION CRITERIA

Address each of the three criteria listed in Section 05 directly.

PROFESSIONAL SERVICES REQUIREMENTS

Describe the minimum PS engagement required to deploy in an environment like ours.
